This particular program provides students with a holistic approach to music and creates "whole musicians". I like to think of it as a puzzle. I teach them what the puzzle pieces are, what they do and how they fit together. Thus creating the whole Picture. Students are able to apply music theory and concepts with excitement and confidence.

See what real parents and kids are saying ... and raving about!

"Playing piano is better than watching TV or playing games. –Luka (6yrs)

"I can hardly wait to get home to practice this song!" –Avery (7 yrs)

"I have been extremely pleased with Miss Cyndi and the unique learning environment. All three of my children have enjoyed the holistic approach of this program far more than traditional piano lessons ... I have personally played several instruments, took piano lessons for 10 years, but I too have enjoyed this system of learning far better."

~ Angela (Riverton)

"My 8 year-old daughter has been with Miss Cyndi for 2 years. I took piano when I was 8, but my daughter has now surpassed my own knowledge of music, piano theory, and ability to sight-read."

~ Gina (South Jordan)

"My children have learned the dedication and discipline that it takes to truly excel. Not only excel at the piano, but also in their lives. It is inspiring to see my children develop a true love for music, and the ability to express themselves at the piano, and in countless other areas."

~ Mary (Layton)

"My 4 yr old son started taking piano lesson in Aug and in 6 mo can play hands together with chords. I found as my son's ability to sight read music and use both hands increased so did his reading and math ability skyrocket!"

-Laura

(Midvale/APA Parent)

"Miss Cyndi has opened a door in my child I did not even know was there. I have been amazed at how much my daughter has learned and progressed in piano."

~ Charisse (South Jordan)

(South Jordan)

"My daughter struggled to learn piano in the traditional way, and was ready to quit altogether. Miss Cyndi opened up a whole new way of learning, as well as an in-depth approach to music. My daughter now loves the piano and wants to tackle other instruments. This program teaches you far more than just how to play an instrument ... [It teaches] about all aspects of music, from composing to transposing, and beyond ... She often sits down to play the piano just for fun, and can transpose the song into another key with little effort. Miss Cyndi has given her the confidence to succeed and a chance to understand music in a whole new way."

~ Jeanine (West Jordan)

Pre-Registration & Intent To Enroll

Please indicate your intention to enroll by completing our Pre-Registration Form below. You may call, or email. If space is available, we'll offer a lesson time and temporarily reserve a seat for you and your child.

If space is unavailable or class-times don't work, we will be glad to add you to our waiting list in the order of your request, so when space opens up or if we add additional classes, we can offer you priority placement.

Please note registration is not confirmed until our Parent Registration Packet is complete and initial payment has been made. We reserve the right to re-allocate any temporary space reservation to another parent who is ready to complete the final Parent Registration Packet.
