

Parents,

If you're still considering registering your child for our spring competition team, we do still have spots remaining. I've postponed the late registration price increase until March 23rd, so you can invite your friends to join if they're still on the fence too.

The competition team is for athletes who want to focus on a few events and compete with other clubs, while the summer program is designed to introduce kids to all track events and is non-competitive, and self-improvement-based.

If you've been waiting for our Summer Track and Field program registration to open, wait no longer! Our reservation request was just confirmed for Tuesday and Thursday evenings June 13th through July 20th. Registration is OPEN at [www.drapetrackandfield.com](http://www.drapetrackandfield.com)

Since last summer's track and field session was so popular, we're providing two separate practice times so that we can provide a lower Coach/Athlete ratio. Kids entering 3rd-5th grade will practice from 5:00-6:30pm and kids entering 6th-9th grade will practice from 6:30-8:00pm.

It takes a village to put together a quality track club. At every practice we need parents or older siblings to help measure times and marks of our athletes. Kids LOVE it when parents get involved and its fun to help out! Its a WIN-WIN! If you'd like to help with timing or measuring at 4 or more practices, indicate your shirt size in the volunteering dropdown menu when registering. Volunteers get the chance to get involved and receive a **free** Draper T&F t-shirt.

As the season approaches, I'll send out a sign-up form to volunteers so you can reserve your spot(s). Thanks in advance for your help!

I look forward to Coaching your child!

-Coach Nan
