

## **Vezzoso School of Music**

Children blossom in so many verifiable ways when they are involved in music education and in music ensembles. These include increased brain development and the formation of important neural pathways for further academic and musical achievement.

The new *Vezzoso School of Music* in Draper is offering additional opportunities to supplement your child's in-school music experiences. Our website, [vezzosomusic.org](http://vezzosomusic.org), describes these opportunities in much greater detail, but here is an overview:

1) *Private Music Lessons*, currently offered in piano, violin, viola, cello and percussion, are given by excellent, carefully trained teachers.

2) *Let's Play Music* classes for children 4-6, and *Presto* classes for children 7-12, teach piano and music skills through play and fun activities in small groups.

3) *Vezzoso Voices*, our after-school youth choirs, provide opportunities for young people to make new friends while learning additional singing skills and performing new songs.

Note: If your child already participates in an APA school choir -- bravo!!! Our program is not meant to supplant your child's school choir activity but to enhance and grow his/her skills. It will prepare him/her even further for entry into auditioned choirs at APA and elsewhere. We look at it as another opportunity for those who just cannot get enough of singing!

4) *Icefyre Beats*, our exciting beginning percussion ensemble, teaches rhythm understanding and rhythms of the world on professional instruments.

Please visit our website, [vezzosomusic.org](http://vezzosomusic.org), for contact and registration information.
